"Jewel of the Orient" Cuisine

Spices and herbs play a very active part in distinguishing Thai food from other oriental cuisine. Thais believe that food should please the eye, the tongue and the nose. The food may be hot, sour and sweet all at the same time. Hot chili, curry paste, coconut milk, lemon grass, cardamom, garlic and many different types of fresh fruits and vegetables are just a few of many different ingredients. Now you can see why Thailand is "Jewel of the Orient"

All meals are special trimmed for no fat.
We cook to your specifications Thai hot, medium or mild.
